614 & are somewhat moved around, however, and are even scattered, so that one may find parts of a suku in entirely different areas. I must check on this.

624 As for the four adat chiefs, aside from the mosa laki mere, who sits in the center when judging, the giri tumba (whose name means "spear running around") stands or sits to the right of the mosa laki mere. The ndeto au, who is an [791] expert on making adat stuff which I judge to be ordeal material or magical divining, sits or stands to the left of the mosa laki mere. The sike sani acts as a watchman or policeman. I must get the full account of the functions of these men.

701 Then I asked if they had had war leaders formerly and they said yes. They are called "brave men" or atambani (ata-m-bani or orang brani). They said that they were fierce and feared.

793 Then I asked about the priests, and they said
789 that they still have plenty of them. They are
171 called bisa mari. I got the usual story of how they prove their powers of second sight, and it sounded just like the Ambonese talking about guna-guna. These priests are not hereditary, and never were, but the sons usually learn their lore from their fathers.

648 There is much talk here about war with the
175 Dutch and I am told that there were uprisings all over Flores in the year 1907. I was also told of the stern methods of suppression used in those times and how afterwards there was wholesale jailing of the Florenese. They seem to have lost their nerve then and today they no longer rebel.

773 I asked about the old myths concerned with
769 ancestors. The Kapitan Gunung Rodja, who is descended from Djari Djawa, the Madjapahit man who came here on a whale, told a different version

War The Demon or
614 Ili Djadi are the original people here because
173 the Padji are gone. They also are found else-
621 where, and where they and the Padji are found
829 together, as in Adonara, they still fight.
[578] The constant murders there are partly caused by this endless feud. They never live in the same kampong together.

3. Sina Djawa. These are descendants of people who came from the west. There are suku here which came from there. Thus the suku Lewonuhah (kampong, island) of Leloba is of Sina Djawa. So is the suku Lewato of Wailolong.

4. Tenemau. These people came from the submerged island Kroko Putang. There are suku here from these people. Thus, Leworita suku
[769] of Wailolong is Tenemau. In the ceremony this morning the genealogy used to call the ancestors went back to the Tenemau. He says you can tell at once the origin of any suku by listening to the genealogies recited at the rites, because the ancestors are called.

582 Then we got onto the inter-kampong marriage
124 system, and this is not so complicated as the intra-kampong marriage system. I jokingly said that perhaps he got so tired figuring out the internal system that he decided to make the extra kampong rules simpler. He was amused. He also seemed amazed at the building-up process of anthropological research which I use; for example, when I first asked the names of the eight kampongs and then went right on to ask the names of the sons of Lenurat, he saw that
● [791] I was getting directly at the system. He said that if the folk here heard me leading straight into the heart of the complete cosmogony they would think me a suwanggi. I also said jokingly that they couldn't call me a pontianak. He was also delighted with my admiration of how everything here falls into a system. He has learned
124 the word "sistim" and uses it all the time. He
